Your Directors are pleased to recommend a dividend of Rs.0.60 per share for the year ended 31st March 2017 subject to the approval of members. The total outgo in the form of dividend including corporate dividend tax will be to the extent of Rs.38.00 Lakhs.

REVIEW OF OPERATIONS:

During the year under review, production of cotton yarn, was 41.95 Lakhs Kgs as against 42.54 Lakhs Kgs in the preceding year. The turnover increased to Rs.11993.09 Lakhs as against Rs.9871.75 Lakhs in the previous period, inspite of decrease in yarn production and higher volume of sales from traded goods. This is due to the fact that the selling price realised for yarn declined more than the decline in purchase price of cotton, causing erosion of gross profit margin. The Sales turnover includes Export Sales of Rs.4547.41 Lakhs as against Rs.2725.40 Lakhs in the previous year. During the year the export turnover of traded goods increased to Rs.2467.44 Lakhs from Rs.1083.78 Lakhs.

During the year the green energy generated was 85.64 Lakhs units (net) of wind electricity as against 52.92 Lakhs units in the previous year. The production of Wind Electricity improved significantly due to better Wind velocity and repatriation through State Grid.

By captive consumption, the Wind Electricity contributed for reduction in power cost, and contributed to the profits of the textile mill. Hence the overall performance of the Company should be considered as Satisfactory.

Your director are pleased to inform you that the Company has made entry into Branded Garment Business. It has launched its brand under the name of “**NEWRIE LONDON**”. The brand will cover entire outer wear of teens, girls and women western casual wear. Initial response to the range has been quite positive from channel partners and consumers. The garment team is making efforts to create Pan India presence.

OUT LOOK FOR THE IMMEDIATE FUTURE:

The Spinning segment of the textile industry continues to witness the paradox of mis-match of prices of cotton (raw material) and prices of yarn (finished goods). Hence your Company will focus on improving production of Value Added Textile Products. The contribution from branded garments is likely to expand, with more and more marketing outlets created by the Company. Hence your Directors are optimistic of continued good performance subject to the equality maintained between the prices of raw material and selling price for yarn.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

Industry Structure and Developments:

The Textile Industry is a major export earner for the country by export of cotton yarn and value added products like fabrics and garments. The revival of economy in the overseas market will add stimulus to the Industry. The Industry depends upon availability of cotton at a stable price besides availability of uninterrupted supply of power from the State Controlled Electricity undertakings. The Management continues to upgrade the quality of yarn produced to ensure competitive advantage in marketing its products more through exports and sustain profitability.

The Company has made entry into Branded Garment Business. It has launched its maiden brand under the name of “**NEWRIE LONDON**”. The brand will cover entire outer wear of teens, girls and women western casual wear. Initial response to the range has been quite positive from channel partners and consumers. The garment team is making efforts to create Pan India presence.

Opportunities and Threats:

The cotton textile industry has large potential for growth through ever growing demands for cotton fabrics / garments; however, the textile industry in India, continues to face the threat of availability of quality cotton at a stable price as the domestic supply of cotton depends upon vagaries of monsoon. The adverse fluctuation of rupee as against dollar, is more than offset by the constant rise in the prices of imported raw material and cost of fuel, which leads to increase in the cost of power purchased from the State Controlled Electricity undertakings or from other private suppliers. Hence the company is exposed to the threat of erosion of profit in spite of optimum production and exports.

Product-wise performance:

The Company's main product range continues to be Cotton Yarn and Knitted fabrics, catering to the needs of Hosiery/Knitted Garment Industries. The company continues to pursue a policy of constant up-gradation of quality of yarn and fabric produced.

Outlook:

Due to competitiveness at all levels, it is necessary to implement consolidation strategies such as cost reduction measures, improving productivity and exploring new markets, maintaining high quality and these measures are under way as ongoing process.

Risks and Concerns:

The key raw material for our industry is cotton and major area under cotton cultivation is rain-fed and hence it is dependent on vagaries of monsoon. Adequate availability of raw cotton is crucial for the company. Any disruption in the supply and / or violent changes in the cost structure would affect the profitability of the company. Power also plays a major role in cost structure.

Internal Control system and their adequacy:

The Company has proper and adequate systems of internal controls, to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition. These systems also ensure that all transactions are authorized, recorded and reported correctly. A strong system of internal audit and effective and comprehensive reviews by the Audit Committee of the Board have strengthened the internal controls within the organization.

The Company's Financial Performance & Analysis:

The Company earned post tax Profit of Rs.334.28 Lacs (Previous year Rs.226.88 Lacs) after providing for current Income Tax and deferred Tax. The Financial performances of the company are explained in detail in the Directors report to Shareholders.

Human Resources/Industrial relations:

**'Annexure B' to the Independent Auditor's Report of Even Date On The
Financial Statements of SALONA COTSPIN LIMITED**

*Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the
Companies Act, 2013 ("the Act")*

We have audited the internal financial controls over financial reporting of Salona Cotspin Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both issued by ICAI and deemed to be prescribed u/s 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that -

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SALONA COTSPIN LIMITED**Significant Accounting Policies****1. Basis of Accounting**

The financial statements are prepared under historical cost convention, as a going concern and on accrual basis and in accordance with applicable Accounting Standards referred to in Subsection 133 of the Companies Act, 2013 and normally accepted accounting principles.

Accounting Standards referred to in Section 133 of the Companies Act, 2013 have been followed to the extent applicable in the preparation of annual accounts and no material departures are made.

2. Use of estimates:

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

3. Property Plant and Equipment

Property, Plant and Equipments are stated at historical cost less accumulated depreciation and impairment, if any. Free hold land is measured at cost and not depreciation. Cost includes related taxes, duties, freight, insurance etc. attributable to acquisition, installation of the fixed assets and borrowing cost if capitalisation criteria are met but excludes duties and taxes that are recoverable from the authorities.

Machinery spares including spare parts, stand - by and servicing equipment are capitalised as property, plants and equipment if they meet the definition of property, plant and equipment i.e. if the company intends to use these for more than a period of 12 months.

The Company identifies and determines cost of each component / part of the asset separately, if the component / part has a cost which is significant to the total cost of the asset and has useful life i.e. materially different from that of the remaining asset.

Capital Work in Progress : Projects under which projects are not ready for their intended use and other capital working in progress are carried at cost, comprising of direct cost and attributable interest. Once it becomes available for use, their cost is re-classified to appropriate caption and are subject to depreciation.

An item or property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit/loss.

Depreciation has been charged on cost of property, plant and equipment on straight line method over the remaining useful life of the assets as prescribed under Schedule II to the Companies Act, 2013.

4. Investments.

Investments classified as non - current and are carried at their cost unless there is a permanent diminution in value of investments. Dividend and yields if any, are accounted on their entitlement.

5. Inventories

Inventories are valued on the following basis.

- | | |
|----------------------|---|
| a) Stores and Spares | - Cost including excise duty if applicable |
| b) Raw Materials | - Cotton - Lower cost or Net Realisable Value |

- c) Finished Goods- Cotton hosiery yarn and Fabrics - Lower of Cost or net Realisable Value.
- d) By product - Net Realisable value

6. Provisions and Contingent Liabilities:

The Company recognizes a provision when there is a present obligation as a result of an obligating event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

7. Revenue Recognition

- i. Accrual basis of accounting is followed by the company for all regular sources of income and expenses.
- ii. Sales are accounted on transfer of property in goods to the buyers for a definite consideration; sales include exchange fluctuation gain / loss realised or incurred during the year in respect of export sales.

- iv. Input credit against goods are accounted for by adjustments against cost of relevant goods; Unadjusted State VAT Credit is carried over as advance.

8. Foreign Currency Transaction

Foreign currency transactions chargeable to revenue have been accounted for by adopting the exchange rate as per documents negotiated with the bankers. Export sales are net of exchange fluctuation gain / loss realised / incurred and accounted for as per realisation certificate received from the bankers. Foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the balance sheet date or at forward exchange rate, as may be applicable.

9. Retirement Benefits

- a) Retirement benefits such as periodical Contribution to Provident fund and Pension Fund being defined contribution plans are charged to revenue. Such contributions are on predetermined statutory rates payable to competent authority.
- b) Gratuity, which is a defined benefit, is accrued and provided for based on independent actuarial valuations as at the balance sheet date. Gratuity claims are settled on the occurring of the event / claim.
- c) The present value of the obligation under such plan is determined based on the actuarial valuation using the projected unit credit method which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the financial obligation.
- d) Gratuity to working directors, the liability is ascertained on accounting principles as laid down by the formula prescribed by Payment of Gratuity Act, 1972, and they are not funded but only provided for.

- b. Interest on borrowings, if any, attributable to acquisition of qualifying assets are capitalised and included in the cost of the asset, as considered appropriate.

11. Related Party Transactions:

Transactions with the directors or similar key management personnel of an enterprise with respect to the name of the related party and nature of the related party relationship where control exists have been disclosed irrespective of whether or not there have been transactions between the related parties.

12. Leases:

Assets leased by the Group in its capacity as lessee, where the Group has substantially all the risks and rewards of ownership are classified as finance lease. Such leases are capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognised for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

13. Earnings per Share:

Earnings per share is arrived by dividing profits attributable to shareholders by the number of equity shares

14. Taxes on Income:

Current tax is determined as per the provisions of the Income – Tax, 1961 in respect of taxable income for the year and based on the expected outcome of assessments / appeals.

Deferred tax assets and liabilities are recognised on timing differences between accounting income and taxable income for the year and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax assets are recognised and carried forward subject to consideration of prudence only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

15. Cash Flow Statements:

Cash Flows are reported using the Indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. Cash and cash equivalents include cash on hand and balances with banks in current and deposit accounts with necessary disclosure of cash and cash equivalent balances that are not available for use by the company.

16. Impairment of Assets:

An asset is treated as impaired when the carrying amount of the asset exceeds its estimated recoverable value. Carrying amounts of fixed assets are reviewed at each balance sheet date to determine indications of impairment, if any, of those assets. If any such indication exists, the recoverable amount of the asset is estimated and an impairment loss equal to the excess of the carrying amount over its recoverable value is recognised as an impairment loss. The impairment loss, if any, recognized in prior accounting period is reversed if there is a change in estimate of recoverable amount.
